Used CME FU-2 Universal Milling Machine

Stock No	4695
Table size	300mm x 1300mm
XYZ travel	X-950mm, Y-300mm, Z-450mm
XYZ power feed & rapid	Yes
Spindle Speeds vertical	40-1800rpm (12 speeds)
Spindle speeds horizontal	40-1800rpm (12 speeds)
Spindle taper vertical	ISO 40
Spindle taper horizontal	ISO 40
Motor Hp/Kw	5.5hp
Machine Voltage	415volt
Dimensions for Transport	2200 x 1500 x 2100 (h) mm
Weight	1900kg
Features/Accessories	
Power feeds	Yes
Arbors	No Arbor
Arbor supports	Yes
DRO	Heidenhain 3 axis DRO
Coolant System	Yes
Worklight	Yes
Sale Price	\$8,000.00
Faults - If Any	None Found in good working condition
	Page 1 of 2

Transport insurance	We would like to extend a note to all prospective customers. We are happy to provide details of freight companies that transport machines anywhere in Australia or worldwide. However, we want to remind customers that the machines are not insured during transport by either the transport companies or Newmac Equipment. We strongly advise that customers speak with their usual insurance company to take out transport insurance.
3 Phase Power — Please Note	This machine may or may not include a plug. When 3 phase machinery is decommissioned from industrial use, it is typically disconnected directly from a switchboard by an electrician — meaning no plug is fitted, and in some cases the cable may also be absent. As a machinery dealer, we are not electricians and are unable to supply or fit plugs. Buyers will need to arrange connection through a licensed electrician. This is no different to purchasing new 3-phase machinery, which also requires a licensed electrician for installation.
